## SPRING SONG

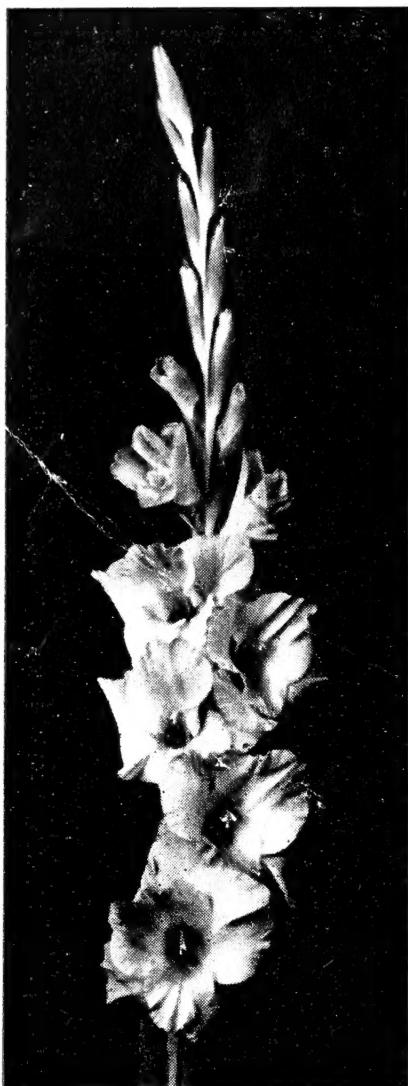

(*Red Penny x Libelle*), formerly seedling J45

 SPRING SONG is recommended to fill the needs of anyone looking for a large-flowering, early, lavender gladiolus for the cut-flower trade. Florets are large, ruffled and have a throat marking of a deeper shade. Flower-head measures 27 inches and usually carries 16 buds although 20 buds are not uncommon on first spikes. Overall height of plant is 50 inches. Stem is consistently straight. Large bulbs produce two spikes. An interesting feature of this variety is that a planting of uniform size bulbs is "cut-out" in 8 days, only a very few stragglers remaining after that time. Here in Lebanon our early planting comes into bloom on the first day of July. SPRING SONG is healthy and holds its green foliage until quite late in the fall. It is an excellent propagator and frequently blooms from bulblets.

Introductory prices:

Any size bulb .....	\$2.00 each; 10 for \$16
Bulblets (see note below) .....	12 bulblets for \$2.00

NOTE: Twelve may be purchased with each bulb. Bulblets will not be sold separately this year.

## JOURNEY'S END

(*Picardy x Pfitzer's Triumph*)

This glad is the happy blend of its two great parents. Color is a salmon red, the throat and petal margins being a deeper shade than the rest of the flower. Its 6" flowers are carried high on a tall, strong stem. It is an early bloomer.

JOURNEY'S END never fails to attract. It is a giant in the garden, a consistent winner at the shows, and a heavy favorite for basket arrangements.

Excellent germination of bulblets for the past two seasons makes it possible to offer bulbs of all sizes.

## WAR PAINT

(*Red Penny x Regent*)

A new scarlet which opens up to 10 large florets on a 22 bud spike. Height 54", flower-head 27". Because of its strong straight stem and long flower-head, it makes an excellent garden glad as well as cut flower variety. Blooms in 85 days. Does not burn or crook. Bulblets germinate well and make strong plants.

This past season we entered WAR PAINT in three shows, Keystone, Maryland and Delaware. At each show we made a one-spike and a three-spike entry. All six entries placed first in their color classes, four of them went on to sectional champions, one to best three spike entry in the show and one to grand champion.

# MAMIE

(*Picardy x Giant Nymph*)

ZN This is a large-flowering salmon pink glad, tall and strong, with excellent cutting qualities. Its color is a shade deeper than Picardy and leans more toward the pink end of the salmon range. When the bottom florets open, most of the buds show color, the larger ones having a prominent flare at the tip which greatly increases the decorative value of the spike.

Foliage is especially thrip-resistant. Blooming period is same as for Picardy.

*Prepaid prices:*

Medium .....	5 for .25; 10 for .40
Small .....	8 for .25
Bulblets .....	packet for .25

# MOTHER KADEL

(*Picardy x Spray of Gold*)

ZN Since its introduction in 1941 this variety has been increasing yearly in its popularity as a show flower and a commercial cut flower. Perhaps its chief appeal lies in its exceptionally pure tone of medium yellow, unmarked by foreign color of any sort. Cut in bud it opens well in water, holding its size and color to the very tip.

*Prepaid prices:*

Large .....	2 for .25; 10 for \$1.00
Medium .....	3 for .25; 10 for .60
Small .....	5 for .20; 10 for .40

# RED PENNY

(*Apricot Glow x Pfitzer's Triumph*)

ZN RED PENNY is a favorite of both florist and grower. The florist likes its chinese-red color and its handling qualities. The grower likes its earliness, its strong, straight stem which can be cut with a minimum of damage to the foliage, and its vigor.

If you want a good commercial for the early high prices, you want RED PENNY. I trust that this season my stock will enable me to fill all orders.
